CAREER OBJECTIVE

Curious and detail-oriented student with strong written communication skills and a keen interest in Generative AI, digital marketing, and business. Eager to contribute through content creation, market research, AI-assisted workflows, and creative problem-solving while continuously learning.

WORK EXPERIENCE

Project Developer

May 2026 - Jun 2026

Step2heal Advanced Physiotherapy And Rehabilitation Centre Noida Sector 12, Virtual

Leveraged Generative AI to build and deploy a responsive 6-page website for a physiotherapy clinic using GitHub and Vercel. Directed AI-assisted development by defining project requirements, refining prompts, customizing outputs, and managing iterative improvements. Designed the clinic's logo and integrated branding consistently across the website. Successfully launched the website, providing the clinic with its first professional digital presence.

PROJECTS

[StepHeal Web Development Project ↗](#)

May 2026 - Jun 2026

Designed, developed, and deployed a responsive multi-page website for a physiotherapy clinic using HTML, CSS, JavaScript, GitHub, Vercel, and Generative AI. Used AI-assisted development for code generation while independently handling project planning, prompt engineering, UI customization, testing, debugging, SEO optimization, and deployment.

[Step2Track AI Posture Assessment System ↗](#)

Jun 2026 - Present

Designed and developed an AI-assisted web application concept for posture assessment and joint range of motion measurement. Leveraged Generative AI during development while focusing on user interface design, workflow planning, and physiotherapy-focused functionality.
